

Guests were taken in Greenland, went down with the Miranda.

Prof. Dyke, of Kansas University, lost a fine lot of Labrador and Greenlandic bones. Prof. Wright, of Cornell University, lost a fine lot of bones. Prof. Wright, of Cornell University, lost a fine lot of bones. Prof. Wright, of Cornell University, lost a fine lot of bones.

The passengers slept in the hold, on top of the fish and fish. Gulls and other sea birds constituted the only food of the party for the last ten days.

The great credit cannot be given to the crew and the crew of the ship for their efforts in behalf of those who were taken in Greenland. The party who were taken in Greenland, went down with the Miranda.

The last steamer Miranda was built in 1891 for the St. John and New York trade. She was a fine vessel, which had the celebrated Leary timber raft off Long Island Sound. She was built by the St. John and New York trade.

The passengers slept in the hold, on top of the fish and fish. Gulls and other sea birds constituted the only food of the party for the last ten days.

The Miranda was a steamer of 1,154 tons gross. She was built at New York, N. Y., in 1891. She was a fine vessel, which had the celebrated Leary timber raft off Long Island Sound. She was built by the St. John and New York trade.

## SHIRT-MAKERS, TOO.

3,000 Preparing to Join the Striking Cloak-Makers.

Union Carpenters' Strike Against "Lumpers" Growing.

The Thousand Men Now Out Will Make No Compromise.

The shirtmakers are preparing to throw their forces into the breach against the sweating system. They claim to be working under even more grinding, soul-and-body-destroying conditions than the coat-makers who are fighting for emancipation from the task system.

There are 3,000 men and women in this city making shirts. One-half of this number work in organized union shops where the hours of labor are from 7 o'clock in the morning until 4 o'clock in the evening. The other half work in the sweatshops in the vilest of the vile sweat shops, 3 o'clock in the morning until 10 o'clock at night. And notwithstanding this discrepancy in the hours of labor, the sweatshop toilers earn no more than those who work in the union shops. The average earnings for both classes are \$4 a week.

Shirt-makers formerly got a cent for each shirt. Now they get one cent for a dozen shirts. To make matters worse, in some shops the employees have to pay their masters for the use of the machine they work on.

The strike of the coatmakers now includes almost every sweatshop on the east side. Seven thousand out of eleven thousand more of other trades are also involved in the strike.

The "Cost Contractors" will meet a committee of the Executive Board of the Brotherhood of Tailors at 2 o'clock this afternoon at 220 East Broadway to consider means for settling the strike.

The shirt-makers' envious Association has notified the strikers that it will give a benefit performance in aid of the strike.

This morning a committee of three from the Brotherhood of Tailors called on the shirt-makers at 138 Essex street, to strike. The members of the committee asked the shirt-makers to strike.

The shirt-makers' strike has been settled in most of the shops, but is very active in the sweatshops. There are still about 1,000 men out, but while negotiations for the shirt-makers are likely to be consummated to-day by the manufacturers yielding to their demand for higher pay, the shirt-makers are likely to be out for some time.

## LUMBER MEN HIS PREY

Amberg Caught After Extensive Check Swindles.

His Victims Are Scattered All Over the Country.

Once a Trusted Clerk, He Took to Disillusion.

Charles F. Amberg, who, during the last six months, has earned for himself the reputation of being one of the most adept forgers and skillful check swindlers of recent times, was remanded in the Tombs Police Court to-day for examination to-morrow on a charge of forgery.

The complainant was H. C. Magruder, a member of the Parmelee-Eccleston Lumber Company, with general offices at this company out of \$25 by means of a check on the City of New York National Bank, dated July 7 he defrauded Bank of Clay City, Ky.

Amberg, it appears, was thoroughly conversant with the wholesale lumber business, having been an inspector for four years for the Kentucky Union Lumber Company, of that city. While engaged in this line of work he became acquainted with the representatives of the lumber firms of the Mississippi River.

He operated in Chicago, St. Louis, Louisville, Cincinnati, Baltimore, Boston, New York, and other cities. He was a member of the American Lumber Dealers' Association, and was a member of the American Lumber Dealers' Association.

Amberg displayed considerable knowledge of Martin Brothers' business affairs. He was a member of the American Lumber Dealers' Association, and was a member of the American Lumber Dealers' Association.

## POINTERS ON THE RACES.

Bay Stakes Should Furnish a Great Race at Sheepshead.

Dobbins, Roche and Faraday Meet Again in the Fourth Event.

"Evening World" Selections.

First Race—Rubicon, Harrington, Florence.

Second Race—Magnetism colt, Dr. Favors colt, Dr. France.

Third Race—Copyright, Arab, Henry of Navarre, and John Cooper.

Fourth Race—Dobbins, Saragossa, Roche.

Fifth Race—Henry of Navarre, John Cooper, Banquet.

Sixth Race—Harry Reed, Lisack, McKee.

The Coney Island Jockey Club succeeded in getting a good class of entries for the Bay Stakes, an extra event offered by the association some days ago.

Sir Walter, Banquet, Tambien, Henry of Navarre, and John Cooper, make a rattling good field. All carry weight for age. Henry of Navarre seems to hold the lot safe. At weight for age this time of year, a three-year-old has considerably the best of the game, and as Henry of Navarre is a clinker, the writer will expect to see him win.

Another good race will be the fourth, in which Yo Tambien, Roche, Faraday, Dobbins, Saragossa, the Pepper and Hornpipe meet at a mile and a furlong. Dobbins will have an opportunity to redeem himself in the eyes of the public, and he seems the most likely of the lot.

In addition to these races a good class of sprinters meet in the opening event, and fair two-year-olds will go to the post in the second race.

In the third inquirer, Speculation, Sandowne, Arab, Copyright, Shadow, and other fair milers meet. The track is dry and fast, and some very interesting races are in prospect.

First Race—Sweepstakes of \$15 each, with \$100 added, for all ages. Entries close at 10 o'clock.

Second Race—Sweepstakes of \$15 each, with \$100 added, for two-year-olds. Entries close at 10 o'clock.

Third Race—Sweepstakes of \$15 each, with \$100 added, for three-year-olds. Entries close at 10 o'clock.

Fourth Race—Sweepstakes of \$15 each, with \$100 added, for four-year-olds. Entries close at 10 o'clock.

Fifth Race—Sweepstakes of \$15 each, with \$100 added, for five-year-olds. Entries close at 10 o'clock.

Sixth Race—Sweepstakes of \$15 each, with \$100 added, for six-year-olds. Entries close at 10 o'clock.

Seventh Race—Sweepstakes of \$15 each, with \$100 added, for seven-year-olds. Entries close at 10 o'clock.

## REFUGEES IN DULUTH.

1,000 People There, Made Homeless by Forest Fires.

Wedding Among Survivors—Activity at Hinckley.

Estimates that the Number of Dead Will Exceed 426.

(By Associated Press.)

DULUTH, Minn., Sept. 5.—There are over 1,000 destitute refugees from the Hinckley and Sandstone fires now in Duluth, and it is expected that there will be only a few more to come. Over 60,000 has been raised for their relief, and food, clothing and lumber have been liberally donated. Clouet, Two Harbors and other surrounding towns are sending supplies.

Some persons are returning to their burned homes, leaving wives and families in charge of the Relief Society or sending them to friends and relatives. The Relief Society sent 100 refugees yesterday to friends or relatives in other cities.

The railway authorities are transporting subject to the order of the Committee.

The Mayor and city officials of Hinckley are all safe, and arrived in the city last night.

One of the sad features is the large number of cows, horses, sheep and hogs, as well as swine, that miraculously escaped the fires and are now suffering and slowly dying from hunger. The humane societies at Duluth will at once take this part of the relief work in charge.

There was a wedding yesterday in the Bethel, in the midst of several fire sufferers, by the Rev. C. C. Salter. The bride was Sophie Samuelson and the groom John Persson, both refugees from the fire.

The fire sufferers are suffering from lack of food, and are being fed by the relief societies. The fire sufferers are suffering from lack of food, and are being fed by the relief societies.

## THE COPELAND FREE TREATMENT

Clearly Distinguished from All Counterfeits.

Its Mission Not Alone to Expose the Deceptive Use of the Word "Free," but to Afford to All the Treatment Now Universally conceded to Be the Best.—Practical Good in Establishing a High Medical Standard in the Face of Selfish Schemes and Makeshifts.

The complete exposure of the deceptive use of the word "Free" is not the only result of the Copeland Free Treatment.

It is the mission of the Copeland Free Treatment to establish a high medical standard, which cannot fail to be of public benefit. The new general admission—the almost universal opinion—that the Copeland treatment is the best in existence, and that it is the only one that can be called a "Free" treatment.

These various echoes from the walls and ceilings of the Copeland Free Treatment, which are the result of the Copeland Free Treatment, are the result of the Copeland Free Treatment.
